

## Industry Ambassadors 2021 – Engaging and Inspiring Youth

Thank you for your willingness to share your experiences with students to inspire them to consider future careers in manufacturing!

Please introduce yourself to the students and share with them where you work, your title and what you do at your company.

The below questions are potential ideas to help you frame and share your experiences. Please free to use some or all of these questions and encourage students to ask their own.

- *When did you first think about a career related to manufacturing, and why?*
- *Was there someone who inspired you? Did you have a role model or mentor?*
- *What has been important to your success in your career?*
- *What were the most important courses you took in high school or college to prepare you to be successful in your career in manufacturing?*
- *What do you think are the greatest challenges – either something you've experienced personally or that you are aware of- that students from underserved populations, or women entering a career in manufacturing will face? How did you overcome these challenges and what advice can you offer?*
- *What do you like most about your job?*
- *What advice do you have for a student as they explore a future career in manufacturing?*

Please let us know if you have any questions or feedback. Thank you again for participating! We hope that you have a fantastic experience and appreciate having you on our CCAT Industry Ambassador Team!
